

# Release Notes

## ConstructConnect Project Intelligence

Version 3.0 (2020 3.0) 2/14/2020

---

### Introduction

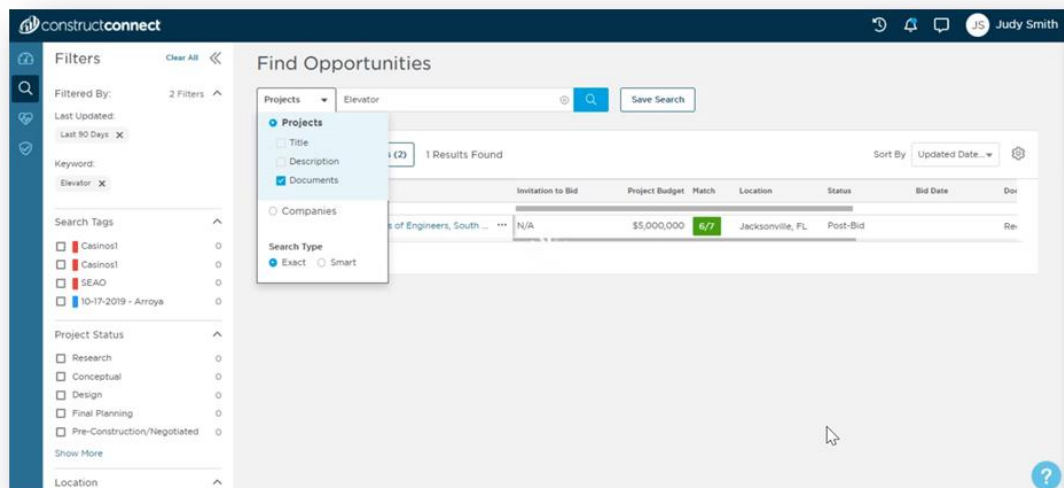

This document describes the features included in version 3.0 (2020.3.0) released 2/14/2020.

### Web features

#### Exact Search

Users can now search for exact terms in project title, description and documents.

- Search exact terms and phrases
- No word stemming
- No need for quotes with multi-word phrases
- Search EXACT in Project: Title, Description, and Documents
- Smart: Generator would return General, Exact will only return Generator
- Smart: Elevator would return Elevation or Elevated, Exact will only return Elevator

**Sortable Start Date Column**

Project Start Date is now available as a sortable data column in search results.

**Search Tag Optimization**

In order to connect you with project data as quickly as possible and improve site performance we have refactored our search tag process. Users may notice a delay in the color “tag” indicator being applied to the results sets on some new and updated projects.
