

# Release Notes: Avast Business Cloud Management Console (April 22, 2020)

Console version: 7.29

Agent version: 4.19

Windows Antivirus: 20.1

Mac OS X Antivirus: 14.3

## Release Summary

This release contains improvements and bug fixes to our Avast Business Cloud Management Console.

## Improvements & optimizations

- Removed detailed information about detected threats from scheduled reports. Detailed information is still available after the manual download from the cloud console.
- Improved “Subscribe more devices” on the Subscriptions page so that newly added licenses are added to existing subscriptions with the same expiration date.

## Known issues

[CBC-8636]	Internal Server error when opening custom policies
[CBC-9920]	Multiple email notifications for one threat event are generated
[CBC-10047]	Duplicated devices
