After

I've NEVER had good skin. In fact, it's been quite the opposite... until now. This skincare line has healed my acne, faded my acne scars, evened out my skin tone AND gotten rid of my dry patches. I am so impressed that this line helps with all those things and actually WORKS.

Hannah Brindley

Before

I have struggled with acne more as an adult than I ever did as an adolescent and I tried EVERYTHING to get it resolved. No prescription, over the counter or even all natural products could take it away, along with the physical pain and lack of confidence I had due to the issues on my face. Enter Bellame's Acqua Lumiere 4 product skincare line! 21 days of twice a day usage was all it took for these products to clear up my skin and help me find my confidence again! I am forever grateful!

Here is my "before" and "after" photos. There is about a 90-day span between the two. I've always had acne and it was always this bad. Bellame gave me my confidence back!

Leslie Carson

Before

After

The pictures shown here represent the first 30 days of using the Bellame collection. I use all products morning and evening. I knew that my skin was feeling completely different....smooth, very clean, and very hydrated but when my "before" and "after" photos were put side by side I was completely blown away! I love Bellame and the nourishment it is giving my skin. I will be celebrating my 65th birthday in a few weeks and I am loving my skin. Thank you Melissa Thompson for developing this luxurious and wonderful skincare.

These are my results after 3 months of use. I have been a Master Esthetician for 5 years and have had access to great professional lines. I felt like my skin had plateaued and was lacking luminosity and hydration. I was desperate but felt like I had the best products at my disposal.

Well, I was wrong. My skin feels soft, hydrated, my sun damage has improved, you can see the luminosity in my skin now. Acqua Lumiere has changed my skin.

(To be transparent I got a very tiny injection in my forehead about a month before the second picture. That doesn't take away from the overall improvement in my skin).

As a public servant working 24 hours shifts on the ambulance it was hard to find something easy to take with me and use at the station that was quick and easy but also helped my skin. While taking care of others we tend to forget what our own body needs to be it's best. Thank you Bellame for creating the amazing Acqua Lumiere regimen that has helped erase the long nights and endless stress I have put my face through over the past 20 years!!

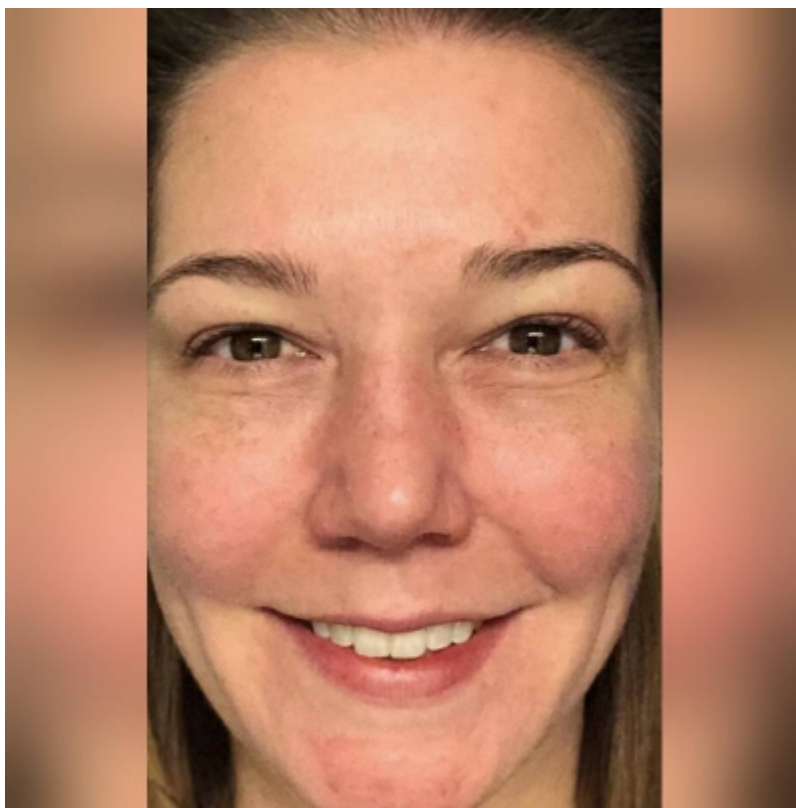

This is my 16 week update!! I could not begin to thank Bellame enough for these products.

As a busy single mom, I wore my exhaustion and stress on my face. After just one week of Bellame, I saw my tired eyes, wrinkles and skin discoloration melt away. I love looking how I feel, glowing, happy and refreshed.

I started using these amazing products the beginning of March 2019. They have changed my skin more than anything else I've tried, including microdermabrasions and chemical peels. My skin is brighter and fresh looking, my pores are smaller, my oil production is regulated, less redness, dark circles are gone, my acne scars are going away, and I have fewer breakouts!

Kelsey Behm

We live in a world of instant gratification. Instantly after using this skincare I could feel the difference in my skin, it felt so soft and smooth. After 2 weeks you could see my results. My skin was more hydrated, my sun spots were diminishing, and my breakouts had cleared up. I finally got that glow every girl wants.

I was always using Bellame on my face, but I started to notice how sun-damaged, and full of acne my chest area was becoming. I decided to start applying the cleanser and serum to my chest, and in just FOUR days, I had a complete turnaround in the appearance of this problem area!

I was a skeptic before trying this skincare collection. I had wasted so much money on other brands with no results. Just a month of using the full collection and I'm a believer in them. These products are healing and nourishing my skin.

Kris Ante

Before

It's hard to pick a favorite product from the Acqua Lumiere line because they are all fabulous, but the eye cream it's an absolute must have in 30 days my fine lines have almost disappeared and the puffy tired mom eyes are now a thing of the past!

Am I ever LOVING my results with Bellame.... so much that I joined as a partner and haven't looked back. I used another well known brand for 5 years to help correct my melasma and sun spots and had no visible changes. This before and after pic is after only THREE weeks of morning and night use! You should see me now- two months after use. I fall in love with the products more every time I use them and fall in love with this business equally everyday!! THANK YOU BELLAME!

July 1st, 2018, I was bitten by my horse on the jaw line. It was red and noticeable and irritated still. Mind you ive never tried a skin care before so when I got my first collection of Acqua Lumeire in February I started using the serum on my scar. As you can see the results are phenomenal!! I continue to use the serum on my jawline along with my c-section which im happy to announce is also disappearing, but no picture will be available for that! Lol Bellame has changed my life!!
