

Release Notes: Avast Business Cloud Management Console (May 20, 2020)

Console version: 7.31

Agent version: 4.20

Windows Antivirus: 20.3

Mac OS X Antivirus: 14.4

Release Summary

This release contains improvements and bug fixes to our Avast Business Cloud Management Console.

Improvements & optimizations

- Adjusted Policies page with new columns showing the number of devices using a policy and the number of devices having the policy overridden. All pages related to assigning devices to a policy from Policies page were removed.
- Added possibility to purchase Premium Support from Subscriptions and Help & Support pages. Available only for US, UK, CA, AU, NZ markets.
- Removed the automatic active Antivirus trial after a console is registered. All product trials have to be manually initiated from the Subscription page upon an Admin's request.

Bugs

- Fixed an issue with getting an error message after opening Tasks page.
- Fixed an issue with closed companies due to a closed Avast ID account.
- Fixed an issue with automatically enabled CyberCapture feature in some cases.

Known issues

[CBC-8636]	Internal Server error when opening custom policies
